### Effects of PST-GST Harmonization on Different Industries

Organizations with operations in Ontario will be affected by the Province's plan to harmonize its provincial sales tax with the federal GST. Though most Ontario industries will benefit, some may face an extra tax burden. Most entities will also need to adjust their accounting systems and operations to prepare for the change.

Jane Adams, FCMA is an Associate Partner with KPMG's Indirect Tax practice and will share her insights into the effects of PST-GST harmonization on different industries. Jane will address some of the impacts such as the financial implications, budget and cash flow issues and provide some planning tips.
